During this tour we pedal through the Marne River valley and the Champagne region. Along the way, you have plenty of opportunity to taste the cheeses and the champagne that this part of France is famous for.

The cycling terrain is not very easy at times. It will be challenging with hilly terrain and varied country roads. We will cycle on small country roads that go up and down through the Champagne fields.

Bike during the day. Sleep on the barge at night.
If you don't want to bike you can ride the barge.
